

## AUGUST STATUS UPDATE

Due to the complexity of the cNEO Security Assessments and resource availability and vacations, the Northwest Health Alliance (NWAHA) has submitted a change request to The Ottawa Hospital to extend the security assessment deadline and other deliverables influenced by this extension until the end of November. At this time, all other deliverables required for Stage 1 will continue as planned (see schedule below for details).

With the strict 24 month timeline of the entire cNEO project, the NWAHA intends to begin clinical engagement with the hospitals and the NW CCAC in October. Clinical Engagement Leads that were provided in the hospital-completed HSP Profile will be contacted by Jacalyn Cop-Rasmussen, the Business & Change Management Coordinator with the NWAHA, to discuss an engagement and adoption strategy. At this time, the NWAHA will be asking each HSP to identify early clinical champions.
