## Updates on Security

The Northwest Health Alliance (NWhA) is happy to report the success of the security requirements coming close to completion. Currently 7 out of the 12 hospitals have completed their security gap analysis process for ConnectingOntario with the remaining 5 hospitals being in the very last steps of the process.

| Hospitals | In Review | First Draft Submitted | Feedback from eHO | Final Draft Submitted | Working On Exemptions | Contribution Completed | Federation Completed | Viewing Completed |
|-----------|-----------|-----------------------|-------------------|-----------------------|-----------------------|------------------------|----------------------|-------------------|

## MARCH MILESTONES ACHIEVEMENTS!

### GO-LIVE WITH CONTRIBUTIONS

The NWhA is happy to announce that as of March 30, 2018 the Thunder Bay Regional Health Sciences Centre (TBRHSC), St. Joseph's Care Group (SJCG), Red Lake Margaret Cochenour Memorial Hospital, Nipigon District Memorial Hospital (NDMH), and the North West LHIN Home and Community Care are live with contribution to the provincial portal! Next month we have three additional sites planned for contribution go-live.

### GO-LIVE WITH ADOPTION

The NWhA is pleased to announce that as of March 9, 2018, the Northwest LHIN Home and Community Care is live with adoption! Currently ten of their clinicians are actively using the ConnectingOntario ClinicalViewer tool. As of March 26th, just over 30 users are live with adoption at the TBRHSC.

*A quick note to all the hospitals regarding adoption:* the initial batch of enrolled users must be submitted to eHealth Ontario by the middle of April 2018. Caroline Harding has reached out to the adoption leads at each hospital to arrange this work to be completed on time.

### FEDERATION/POSA

Federation testing is now completed. Thanks to the IS/IT team from NDMH, LWDH TBRHSC, and SJCG for their tireless efforts in testing over this past month. The federation appliance support handover from the Program Deliver Partner to eHealth Ontario has also been completed. Go-live for Federation for the initial group of users at TBRHSC will commence at the end of March 2018.

## LOCAL REGISTRATION AUTHORITY WORKSHOP

Caroline Harding has reached out to the Local Registration Authority at each hospital to review the enrollment process with eHealth Ontario and the TBRHSC Informatics staff.

## TESTING

Dryden Regional Health Centre, Lake Of The Woods District Hospital (LWDH), and North of Superior Healthcare Group are three hospitals who are in the process of testing with Santé Manitouwadge Health coming on later in early April of this year.

## ENGAGEMENT

The NorWest Community Health Centre and Anishnawbe Mushkiki are in the process of completing their site readiness and privacy assessments, privacy & security officer training and LRA setup. Both organizations will be moving into the adoption stage and go-live dates are being coordinated for April 2018. It is exciting to be close to enrolling users to the ClinicalViewer and completing end-user training! It is anticipated that the Thunder Bay District Health Unit will be included in the next group of HSPs who will receive access to the ClinicalViewer.

The NWhA encourages organizations to reach out to the NWhA to determine how their clinicians can gain secure and timely access to electronic patient information including OLIS, Drug Repository, Hospital Documents and LHIN-HCC Reports, and more!
